

MALIK ABDUL MANNAN

Data Analyst Intern | MySQL · Python · Power BI

ma.abmanan@gmail.com • +92 329-393-1034 • Karachi, Pakistan • [LinkedIn](#) • [Portfolio](#) • [GitHub](#)

OBJECTIVE

Data Analyst Intern with practical experience in MySQL, Python, and Power BI. Skilled in data cleaning, SQL querying, DAX modelling, and building interactive dashboards. Looking to apply end-to-end analytics skills in a professional software environment.

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy, Matplotlib), SQL (MySQL)

Databases: MySQL Joins, Subqueries, CTEs, Schema Design, Query Optimization

Visualization: Power BI DAX, Power Query, Interactive Dashboards, Slicers

Tools: Jupyter Notebook, VS Code, MySQL Workbench, MS Excel

PROJECTS

HR Analytics Employee Attrition Dashboard *(Python · MySQL · Power BI)*

- Analyzed attrition data for 1,000 employees; identified 15.20% attrition rate (152 exits).
- Found 49.34% of exits in the low-salary bracket using DAX salary binning and NumPy np.where logic.
- Detected first-year turnover spike via tenure trend analysis; flagged onboarding gap.
- Built Pandas pipeline to clean and export processed data to CSV for Power BI ingestion.

Pizza Sales Performance Analysis *(MySQL · Power BI)*

- Queried 21K+ orders (\$817.86K revenue) in MySQL to calculate KPIs: AOV \$38.31, avg 2.32 pizzas/order.
- Built category-level breakdown identifying 'Classic' as highest-volume segment.
- Created time-series charts for daily/monthly trends; used Power Query for data cleansing.

Medical Warehouse Inventory & Financial Dashboard *(Python · MySQL · Power BI)*

- Generated and cleaned large-scale synthetic medical transaction data using NumPy and Pandas.
- Migrated to MySQL; wrote complex SQL queries for inventory table structure and retrieval.
- Dashboard tracks 751.88M inventory value, 671M investment, and 1.47M in sales across 3 cities.
- Built expiry tracking system and city-wise profitability maps with cross-filtering slicers.

E-Commerce Sales Analytics *(Python · MySQL · Power BI)*

- Processed \$7.74M revenue dataset to surface growth drivers and underperforming product segments.
- Delivered sales trend, product performance, and customer segmentation dashboard.

EDUCATION

Bachelor of Science in Software Engineering (BSSE) *Feb 2025 – Present*

University of Karachi (UBIT)
